Event logo icon
Edit
Field settings
Home » Administration » Structure » Content types » Events » Manage fields » Event logo icon
These settings apply to the Event logo icon field everywhere it is used. These settings impact the way that data is stored in the database and cannot be changed once data has been created.
Upload destination
Public files
Select where the final files should be stored. Private file storage has significantly more overhead than public files, but allows restricted access to files within this field.
DEFAULT IMAGE
If no image is uploaded, this image will be shown on display.
Image
Choose File
No file chosen
Image to be shown if no image is uploaded.
Alternative text
This text will be used by screen readers, search engines, and when the image cannot be loaded.
Title
The title attribute is used as a tooltip when the mouse hovers over the image.
Allowed number of values
Limited

Updated field Event logo icon field settings.
Label *
Event logo icon
Help text
Instructions to present to the user below this field on the editing form.
Allowed HTML tags: <a> <b> <big> <code> <del> <i> <ins> <pre> <q> <small>   <sub> <sup> <tt>   <p>
 <img>
This field supports tokens.
Required field
DEFAULT IMAGE
If no image is uploaded, this image will be shown on display and will override the field's default image.
Image
Choose File No file chosen
Image to be shown if no image is uploaded.
Alternative text
This text will be used by screen readers, search engines, and when the image cannot be loaded.
Title
The title attribute is used as a tooltip when the mouse hovers over the image.
Allowed file extensions *
png, gif, jpg, jpeg
Separate extensions with a space or comma and do not include the leading dot.
File directory
[date:custom:Y]-[date:custom:m]
Optional subdirectory within the upload destination where files will be stored. Do not include preceding or trailing slashes.
Maximum image resolution
×
pixels
The maximum allowed image size expressed as WIDTH×HEIGHT (e.g. 640×480). Leave blank for no restriction. If a larger image is uploaded, it will be resized to reflect the given width and height. Resizing images on upload will cause the loss of EXIF data in the image.
Minimum image resolution
×
pixels
The minimum allowed image size expressed as WIDTH×HEIGHT (e.g. 640×480). Leave blank for no restriction. If a smaller image is uploaded, it will be rejected.
Maximum upload size
Enter a value like "512" (bytes), "80 KB" (kilobytes) or "50 MB" (megabytes) in order to restrict the allowed file size. If left empty the file sizes will be limited only by PHP's maximum post and file upload sizes (current limit 2 MB).
Enable Alt field
The alt attribute may be used by search engines, screen readers, and when the image cannot be loaded. Enabling this field is recommended.
Alt field required
Making this field required is recommended.
Enable Title field
The title attribute is used as a tooltip when the mouse hovers over the image. Enabling this field is not recommended as it can cause problems with screen readers.
