There are updates available for your version of Drupal. To ensure the proper functioning of your site, you should update as soon as possible. See the available updates page for more information and to install your missing updates.
Download additional contributed modules to extend your site's functionality.
Regularly review available updates to maintain a secure and current site. Always run the update script each time a module is updated. Enable the Update Manager module to update and install modules and themes.

Install
Come with drupal out of the box which can be turned off, but cannot be removed. These core modules are for the basic functionality module.
Contributed modules are the ones someone in communites needs it, tests it, approves it, and available at drupal.org.
The custom modules have the functions we need, but nobody pay attention to it. You have to build it yourself, or pay someone to do it for you.

NAME
DESCRIPTION
Automated Cron
Provides an automated way to run cron jobs, by executing them at the end of a server response.
Block
Controls the visual building blocks a page is constructed with. Blocks are boxes of content rendered into an area, or region, of a web page.
The following reason prevents Block from being uninstalled:
Required by: Custom Block, Chaos tools Views
Book
Allows users to create and organize related content in an outline.
Breakpoint
Manage breakpoints and breakpoint groups for responsive designs.
The following reason prevents Breakpoint from being uninstalled:
Required by: Toolbar
Chaos tools
Provides a number of utility and helper APIs for Drupal developers and site builders.
The following reason prevents Chaos tools from being uninstalled:
Required by: Pathauto

BOOK OUTLINE
Book
Our Drupal Mannual
Your page will be a part of the selected book.
Parent item
Our Drupal Mannual
The parent page in the book. The maximum depth for a book and all child pages is 9. Some pages in the selected book may no: be available as parents if selecting them would exceed this limit.
Weight
0
Pages at a given level are ordered first by weight and then by title.
They are automatically created, because we create a child page.

Display title
Book navigation block display
Show block on all pages
Show block only on book pages
If Show block on all pages is selected, the block will contain the automatically generated menus for all of the site's books. If Show block only on book pages is selected, the block will contain only the one menu corresponding to the current page's book. In this case, if the current page is not in a book, no block will be displayed. The Page specific visibility settings or other visibility settings can be used in addition to selectively display this block.
