Introduction to layout

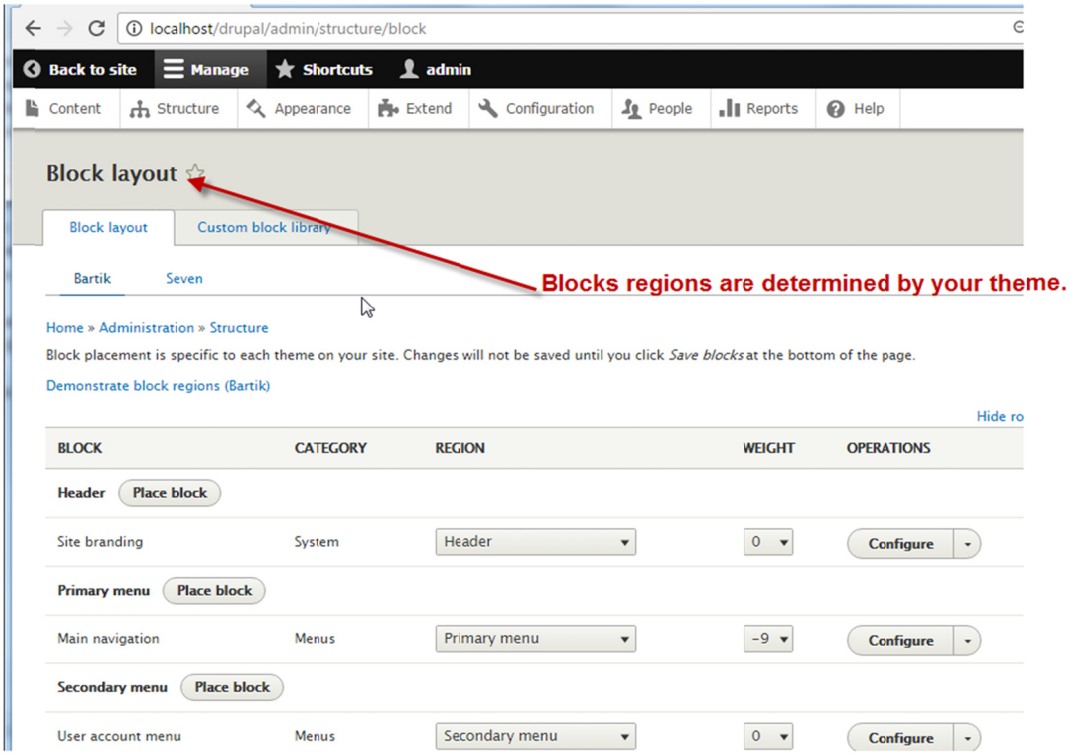

Themes
Blocks
Menus

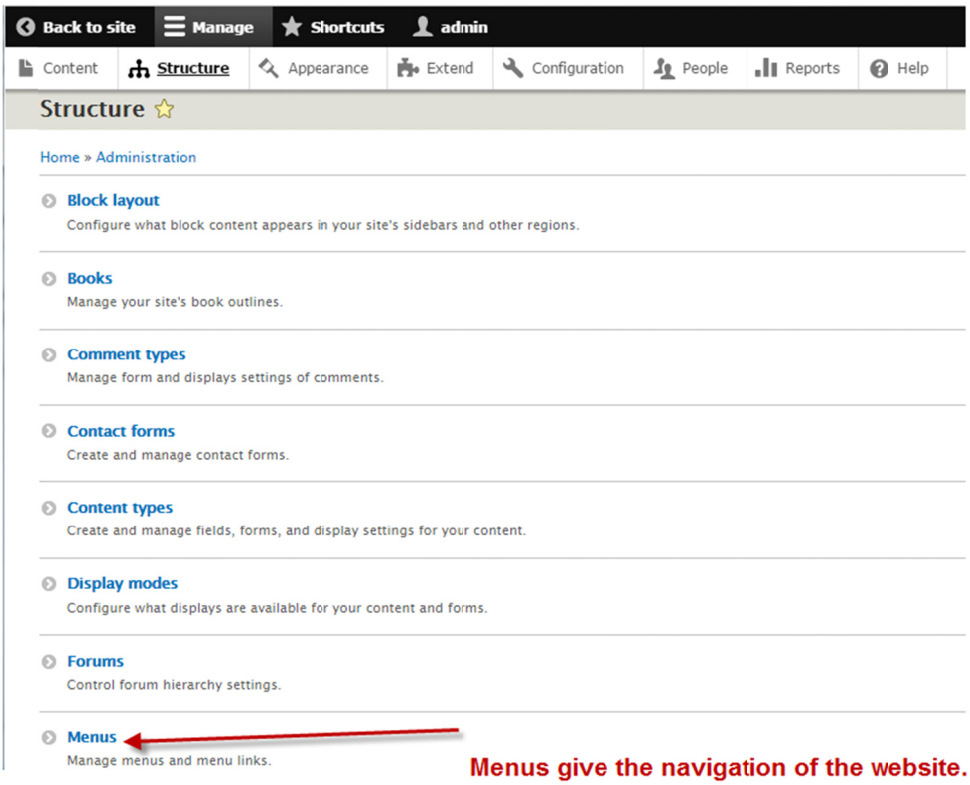

Themes give you general layout looks and feel on you site.

Themes can be applied to your website without chaning your content. And, it will give you the color scheme, where the blocks place, as well as the formating for your text and images.

Blocks are the information can be placed to your vairous places in your website.

Blocks regions are determined by your theme.
Home » Administration » Structure
Block placement is specific to each theme on your site. Changes will not be saved until you click Save blocks at the bottom of the page.
