Themes allow you to change the look and feel of your Drupal site. You can use theme

Bootstrap

No. 1

Posted by wundo on *May 18, 2008 at 1:15pm*

> Sleek, intuitive, and powerful mobile first front-end framework for faster and easier web development. Bootstrap has become one of the most popular front-end frameworks and open source projects in the world.

This base theme bridges the gap between Drupal and the Bootstrap Framework.

Features

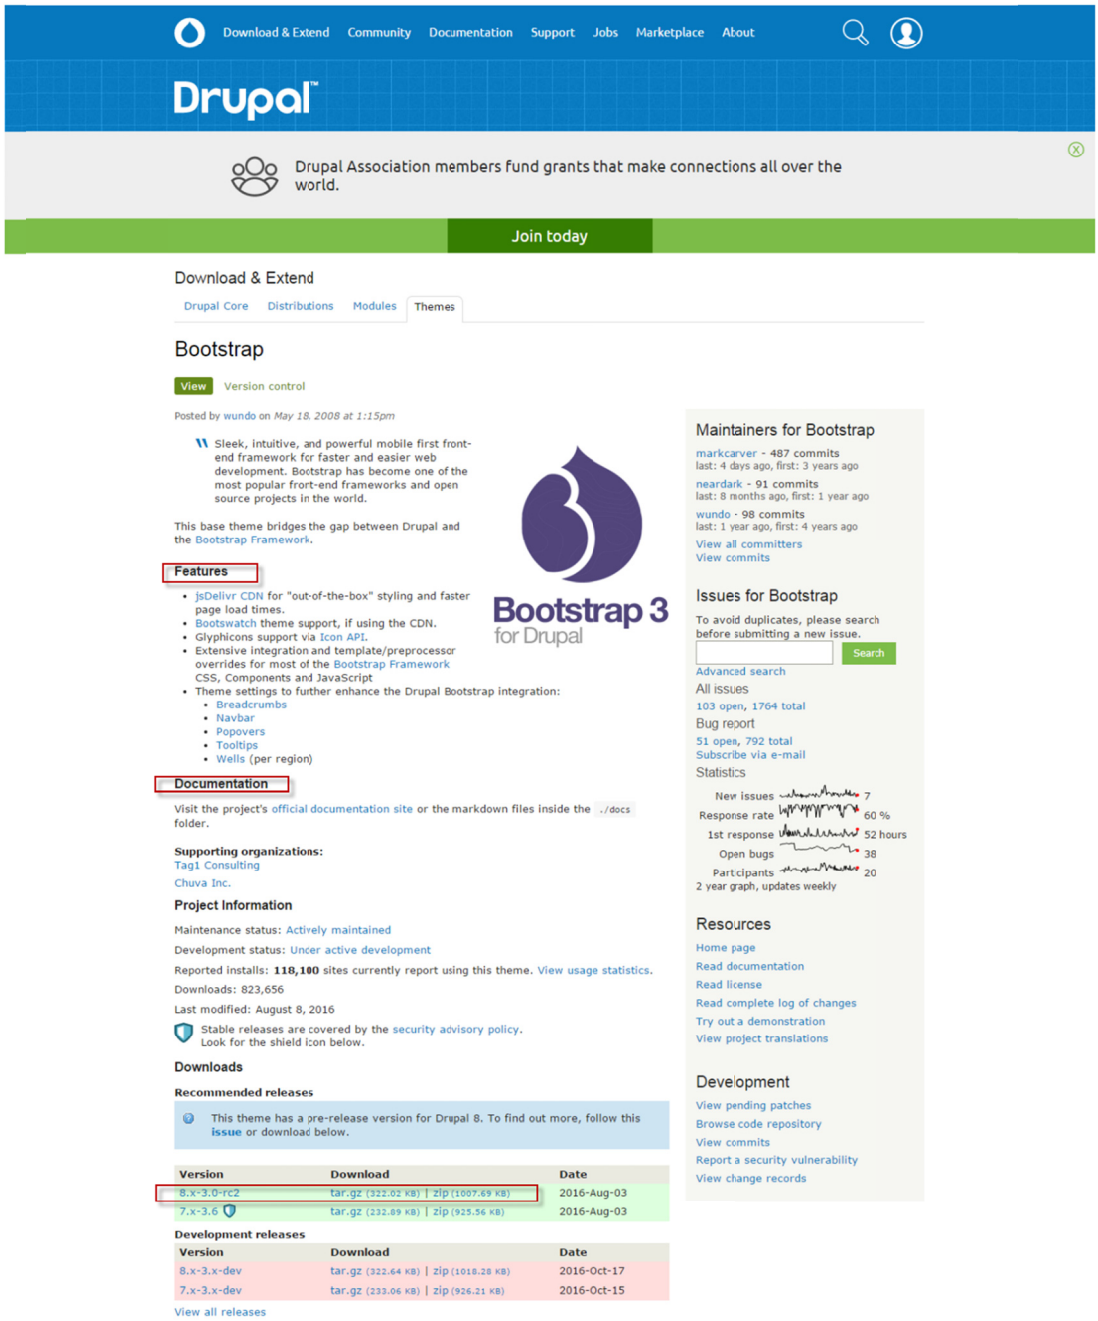

- jsDelivr CDN for "out-of-the-box" styling and faster page load times.
- Bootswatch theme support, if using the CDN.
- Glyphicons support via Icon API.
- Extensive integration and template/preprocessor overrides for most of the Bootstrap Framework CSS, Components and JavaScript
- Theme settings to further enhance the Drupal Bootstrap integration:
  - Breadcrumbs
  - Navbar
  - Popovers
  - Tooltips
  - Wells (per region)

Documentation

Visit the project's official documentation site or the markdown files inside the `./docs` folder.
