A role defines a group of users that have certain privileges. These privileges are defined on the Permissions page. Here, you can define the names and the display sort order of the roles on your site. It is recommended to order roles from least permissive (for example, Anonymous user) to most permissive (for example, Administrator user). Users who are not logged in have the Anonymous user role. Users who are logged in have the Authenticated user role, plus any other roles granted to their user account.

File

- Access the Files overview page
  Get an overview of all files.

Filter

- Administer text formats and filters
  Warning: Give to trusted roles only; this permission has security implications. Define how text is handled by combining filters into text formats.
- Use the Basic HTML text format
  Warning: This permission may have security implications depending on how the text format is configured.
- Use the Full HTML text format
  Warning: This permission may have security implications depending on how the text format is configured.
- Use the Restricted HTML text format
  Warning: This permission may have security implications depending on how the text format is configured.

Forum

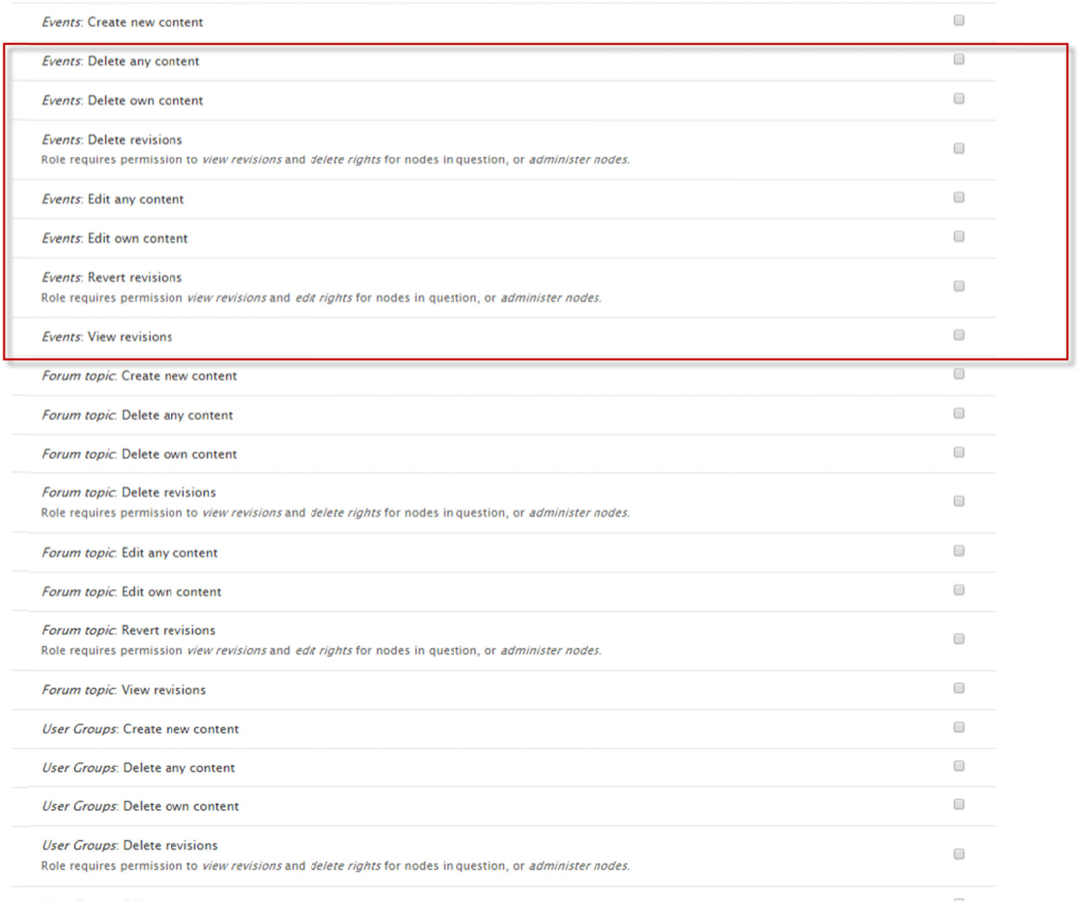

- Administer forums

Image

- Administer image styles
  Create and modify styles for generating image modifications such as thumbnails.

Node

- Access the Content overview page
  Get an overview of all content.
- Administer content
  Warning: Give to trusted roles only; this permission has security implications. Promote, change ownership, edit revisions, and perform other tasks across all content types.
- Administer content types
  Warning: Give to trusted roles only; this permission has security implications. Maintain the types of content available and the fields that are associated with those types.
- Bypass content access control
  Warning: Give to trusted roles only; this permission has security implications. View, edit and delete all content regardless of permission restrictions.
- Delete all revisions
  Role requires permission to *view revisions* and *delete rights* for nodes in question or *administer nodes*.
- Revert all revisions
  Role requires permission *view revisions* and *edit rights* for nodes in question or *administer nodes*.
- View all revisions
- View own unpublished content
- View published content

This web page allows administrators to register new users. Users' email addresses and usernames must be unique.
Email address
intern@ibm.com
A valid email address. All emails from the system will be sent to this address. The email address is not made public and will only be used if you wish to receive a new password or wish to receive certain news or notifications by email.
Username *
Sam
Several special characters are allowed, including space, period (.), hyphen (-), apostrophe ('), underscore (_), and the @ sign.
Password *
Sam
Password strength: Weak
Confirm password *
Passwords match: yes
To make your password stronger:
Make it at least 12 characters
Add numbers
Add punctuation
Make it different from your username
Provide a password for the new account in both fields.
Status
Blocked
Active
Roles
Authenticated user
Administrator
Summer Intern
Notify user of new account
Picture
Choose File
No file chosen
Your virtual face or picture.
One file only.
30 KB limit.
Allowed types: png gif jpg jpeg.
Images larger than 85x85 pixels will be resized.
CONTACT SETTINGS
Uncheck the box
Personal contact form
Allow other users to contact you via a personal contact form which keeps your email address hidden. Note that some privileged users such as site administrators are still able to contact you even if you choose to disable this feature.
LOCALE SETTINGS
Time zone
America/Chicago
Select the desired local time and time zone. Dates and times throughout this site will be displayed using this time zone.
URL alias
The alternative URL for this content. Use a relative path. For example, enter "/about" for the about page.
