Help
Extend
It gives all modules of the website, or features in website.
List
Uninstall
Home » Administration
Download additional contributed modules to extend your site's functionality.
Regularly review available updates to maintain a secure and current site. Always run the update script each time a module is updated. Enable the Update Manager module to update and install modules and themes.
Filter by name or description
Enter a part of the module name or description
CORE
CORE (EXPERIMENTAL)
BigPipe
Sends pages using the BigPipe technique that allows browsers to show them much faster.
Inline Form Errors
Adds WCAG 2.0 accessibility compliance for web form errors. Some form functionality may not work with this experimental module.
Migrate
Handles migrations
Migrate Drupal
Contains migrations from older Drupal versions.
Migrate Drupal UI
Provides a user interface for migrating from older Drupal versions.
FIELD TYPES
Datetime
Defines datetime form elements and a datetime field type.
File
Defines a file field type.
Image
Defines an image field type and provides image manipulation tools.
Link
Provides a simple link field type.
Options
Defines selection, check box and radio button widgets for text and numeric fields.
Telephone
Defines a field type for telephone numbers.
Text
Defines simple text field types.
