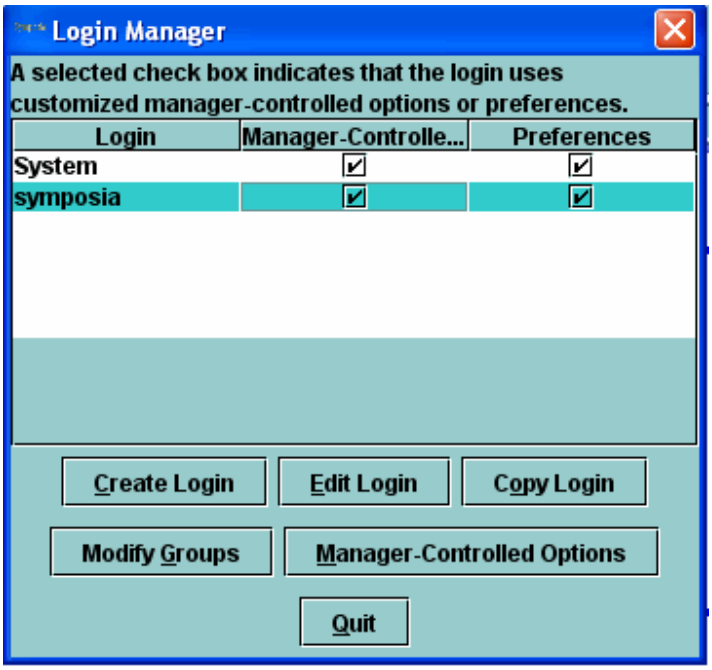
Creating Login Groups

To create a login group, follow these steps:

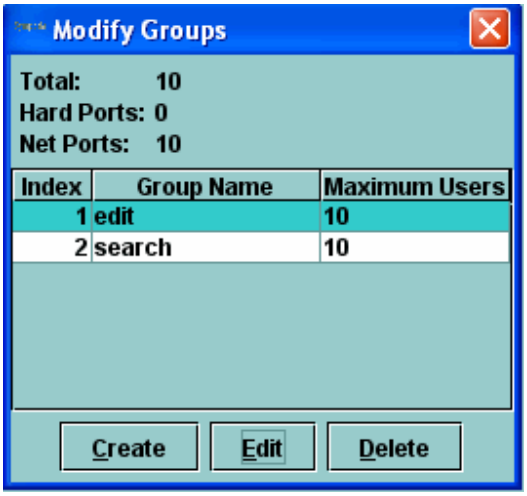
1. Choose Admin | Login Manager.

   The Login Manager displays:



2. Choose the Modify Groups button.

   The Modify Groups dialog displays:

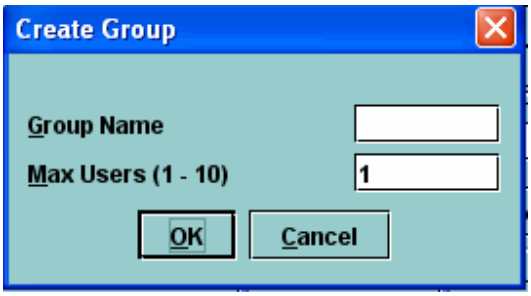


3. Choose the Create button.

   The system warns you that adding groups will remove any current group statistics.

4. Choose Yes to continue.

   The Create Group dialog box displays:



5. Enter the group name and maximum number of users.
6. Choose OK.
7. Choose Quit. You are prompted to save your changes.
