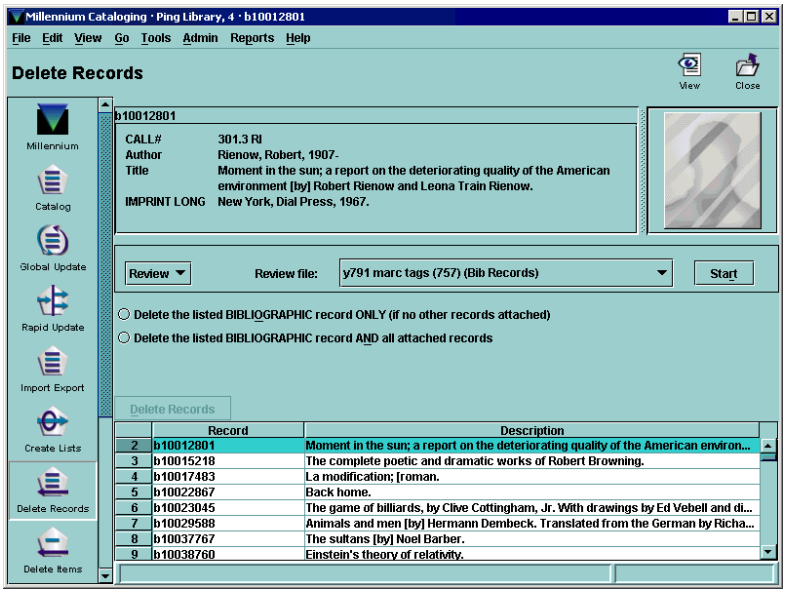
Deleting Records from a Review File

To delete records from a review file:

1. Create a review file of records you want to delete.
2. In Millennium Acquisitions, Administration, Cataloging, Circulation, or Serials, choose the Delete Records mode.
3. From the Review file drop-down list, choose the review file containing the records you want to delete, and then click the Start button. The records listed in the review file appear in the browse (lower) pane, as well as the available deletion options.



From this window, you can browse the review file and select a record for editing. To edit a record from the review file, click its row and choose the View button on the toolbar.

4. Specify whether the system should delete attached records. (This option is not available for authority, contact, course, or patron records.)

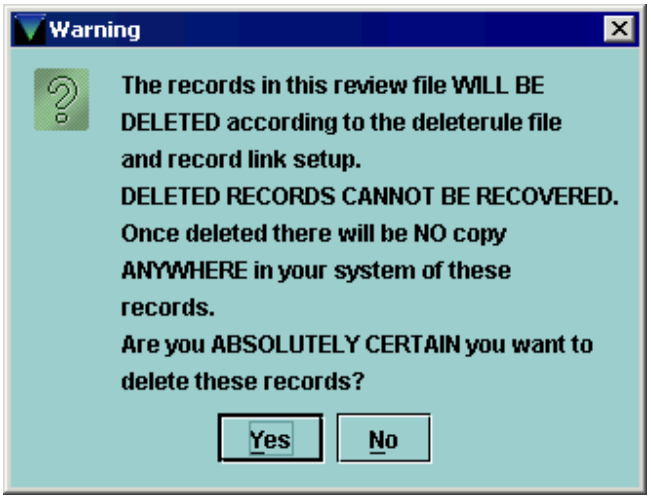
5. Choose the Delete Records button. A Warning box appears.



To cancel deletion, choose No. To proceed with deletion, choose Yes.

If you cancel deletion, Millennium returns to the Delete Records window. If you proceed with deletion, the system deletes the review file records and the Process Summary window appears.

The Process Summary is a report window with two tabs, Successful Deletions and Errors. The Process Summary lists successfully deleted records and provides error messages for records not deleted. You can take no further actions with the records from this report.

6. Choose Close to close the report and return to the Delete Records window.
