Maintaining Circulation Parameters

> To view circulation parameters, you must be assigned permission 373 (View Circulation Parameters). To edit a circulation parameter table, you must be assigned the editing permission for that table. These permissions range from 374 (Edit Days Closed) to 390 (Bookings Preparation) and, depending on the table, can include 311 (Circulation Parameters Administrator). See Permissions Used by Sierra for more information. Note that the permission to edit automatically includes the ability to view.

Circulation parameter tables enforce your library's policies and practices within Sierra. For example, circulation parameters determine whether and how items circulate to patrons, the days and hours the library is open, how to fill holds, when and how much to fine patrons, and when to report delinquent patrons to a collection agency.

To access and edit a circulation parameter table, perform the following steps:

> Erroneous or inappropriate edits to circulation parameter tables can have unintended consequences on circulation activity.
